COLEMAN'S MONTREAL HOUSE,

CORNER OF CUSTOM HOUSE SQUARE.

This spacious Hotel is conveniently and prominently situated, commanding a beautiful view of the St. Lawrence, and is unsurpassed by any house in the city for its style, finish, and arrangements for Travellers or Visitors to the city, on business or pleasure.

The Proprietor, having made extensive arrangements for the accommodation of his guests, and being determined that "*none shall go away dissatisfied*," anticipates the continuance of that liberal share of public patronage, which has heretofore been bestowed.

For the accommodation of his guests, he has prepared a brief synopsis of the more important places of interest in the city,—Places of Worship, Railroad offices, and distances, which will be found in the following pages.

J. WARREN COLEMAN,

Proprietor.

A CARD.

TO THE TRAVELLING PUBLIC.

As many Travellers visit Montreal for the first time, who know nothing generally of the Hotels or Hotel accommodations, and who are often misled by false representations made by runners or other parties employed by some of the other Hotels to gain patronage. I take this opportunity to state that no such means are used to sustain my house.

All necessary arrangements have been made to ensure the comfort of my guests, and I am determined that this establishment shall stand second to none in any respect in British America.

Without further remark, I beg to call the attention of the travelling community to the following notices taken from some of our leading journals as well as from those at a distance.

Opinions of the Press.

(From the *Montreal Pilot*, May 1857.)

MONTREAL HOUSE.—This hotel is by far more pleasantly situated than any other house in the city; and offers superior attractions either to the man of business or the pleasure-seeker. During the last few months it has undergone extensive repairs and alterations: it has also been newly painted, papered, and furnished in a style of elegance we have rarely seen equalled, certainly not surpassed by any of our other city hotels. One great *desideratum* in a hotel, and it is one which travellers value greatly, is lofty and airy rooms. A person travelling either for pleasure or business, but more especially the farmer, has no idea of being confined in a close ill-ventilated apartment. To such, we would say, that the rooms in the Montreal House are large, light and airy, and nearly every one commands a splendid view of the mighty St. Lawrence, and the great Victoria Bridge now in course of erection. The square in front of the hotel is being laid out as a small park, and a *jet d'eau* is to be erected in its centre. When this is completed, it will certainly add greatly to the attractions of the Montreal House. Its proprietor, Mr. Coleman, is well

known to the travelling public, both American and Canadian, having been connected with the Troy House at Troy, N. Y. He uses his best endeavors to make his guests feel *at home* during their sojourn, and he certainly succeeds; for those who have stopped speak loudly of his kindness and attention to them. The servants, and all others in the establishment, second the endeavors of its worthy proprietor to make all its guests comfortable.

Mr. J. Warren Coleman, the lessee of this well-known Hotel, has this year had it renovated throughout in preparation for the travelling season. Extensive alterations and improvements have been made in the building, both decorative and useful. The rooms have been re-painted and papered, and supplied with new and elegant furniture.

The Montreal House, both for comfort and convenience, is unsurpassed in situation; located upon Custom House Square, in the heart of the City, it commands an extensive river prospect.

Under Mr. Coleman's management the Montreal House has obtained a wide popularity with the travelling public, which the recent improvements in this well kept establishment will increase.

The above is extracted from the Montreal *Advertiser*. From personal experience we vouch for the truth of it. The lovely situation, the capacity of the rooms, and the gentlemanly landlord, renders the Montreal House the

oms, and the
House the

scene of pleasure and the comfortable home, *pro tem*, for the traveller. All bound for Cacouna this year should give Mr. Coleman a visit when they reach Montreal.

(From the Montreal Argus, May 1857.)

MONTREAL HOUSE.—This establishment has long been in high favor amongst our travelling community, and the improvements made in it will make it rank still higher. The House has been painted, papered, embellished, re-furnished in splendid style, and improved in various ways; so that for comfort and elegance it will be surpassed by few Houses on this Continent. Its contiguity to places of business and public resort, admirably adapt it as a House for travellers, and others desirous of seeing all worthy of note; whilst its beautiful situation, and the noble view of the St. Lawrence it commands, make it a most agreeable place of stay for families.

(From the Daily Times, May 14th, 1857.)

THE MONTREAL HOUSE, which is kept by our old friend Coleman, is beyond doubt one of the best regulated Hotels in Canada. The rooms are large, airy, and well ventilated, and nearly every one commands a view of the St. Lawrence, and of the celebrated Victoria Bridge, now in course of erection. The square in front of the Hotel is being laid out as a park, and a splendid fountain is to be erected in its centre. Mr. Coleman is a most accomplished and urbane caterer to the wants of

his guests ; his assistants have the advantage of large experience, and second effectually all his endeavors ; and with the table always loaded with every delicacy of the season, there can be nothing lacking for the comfort of visitors.—We recommend the Montreal House to all our friends travelling in that direction.

(From the Boston Daily Courier, May 25th, 1857.)

The Colemans, who have become famous in the management of hotels, have carried their peculiar tact and spirit into Her Majesty's dominions, and the "Montreal House," or the "Anglo-America" at Hamilton, are resorts such as they alone can successfully make them. During the past winter, Mr. J. Warren Coleman, the gentlemanly proprietor of the former house, has enlarged, thoroughly renovated, and refurnished his establishment, adding to it all the modern improvements, thereby rendering it decidedly the neatest, best arranged, and most agreeable hotel in the Canadas. The tables are spread with the substantials and delicacies of the season, the clerks are affable and assiduous, the waiters polite and attentive, and contentment marks the visage of every one who becomes a recipient of his hospitalities.

Travellers' Guide.

CITY OF MONTREAL.

THE CITY of MONTREAL is one of the largest and most populous cities in British North America. It was founded by M. de Maissonneure, in 1642, on the site of an Indian village, named Hochelaga, and dedicated to the Virgin Mary as its patroness and protector, and for a long period bore the name of *Ville Marie*. It is laid out in the form of a parallelogram, and contains some two hundred streets, with a population of 75,000.

The traveller, in approaching the city from the river, is struck with the peculiar beauty of the large cut stone buildings which front the majestic river St. Lawrence, on whose banks they are reared, resembling in their solid masonry and elegance the buildings of the European cities. The wharves and streets, are always clean, and the atmosphere pure and healthful.

The Island of Montreal is, in fact, most properly regarded as the garden of Canada. The city being at the head of ship navigation, her local advantages for trade and commerce are unsurpassed. The completion of the various railroads, as lately celebrated, with those already in successful operation, will greatly augment her business resources and facilities, and afford strong inducements to capitalists for investing their funds for the future.

Places of Interest to the Traveller.

PUBLIC BUILDINGS.

Among the many substantial and elegant edifices in the city, of recent completion, may be mentioned :

THE NEW COURT HOUSE, on Notre Dame Street, and directly opposite to Nelson's Monument, is of elegant cut stone, in the Grecian Ionic style. The ground plan is 300 feet by 125 feet; height, 76 feet.

THE NEW POST OFFICE, on Great St. James Street, is a beautiful cut stone building, J. B. MEILLEUR, L.L.D., is Post Master.

THE MERCHANTS' EXCHANGE, situated on St. Sacrament Street. Several Telegraph and Insurance Offices are in this building, as also the Reading-Room.

THE MECHANICS' INSTITUTE, a very fine building, situated on Great St. James Street, of cut stone, three stories high, built in the Italian style. The Lecture Room is sixty by eighty feet, height eighteen feet, neatly and tastefully finished.

THE MERCANTILE LIBRARY ASSOCIATION, Odd Fellows' Hall, opposite the above.

THE BANK OF MONTREAL, Place d'Armes, St. James Street, opposite the Cathedral, an elegant cut stone building of the Corinthian order.

THE CITY BANK, next to the above, in the Grecian style, of cut stone and worthy of note.

THE BANK OF BRITISH NORTH AMERICA, Great St. James Street, next the Post Office, is a handsome building, of cut stone, and built in the composite style of architecture.

THE BONSECOURS MARKET, on St. Paul and Water Sts., is a magnificent edifice in the Grecian and Doric style; cost about \$300,000; has a front of three stories on Water St, and two stories on St. Paul Street. The upper part of the building is occupied by the various officers of the city. The City Council Room is fitted up in the most elegant style. In the east wing of the building is a large Hall or Concert Room, capable of seating 4000 persons.

THE ST. ANN'S MARKET, opposite the Grey Nunnery, although not built in the style or at the expense of the former, is still a building that speaks well for the public spirit which governs the city, in the erection of their public buildings.

THE GREY NUNNERY is situated on Foundling Street, designed for the care of foundlings and infirm.

THE HOTEL DIEU NUNNERY, on St. Joseph and St. Paul Streets, designed for sick and diseased persons.

THE CONVENT OF THE SISTERS OF THE SACRED HEART is situated at St. Vincent de Paul, nine miles from Montreal.

ACADEMY OF THE SISTERS OF THE CONGREGATION DE NOTRE DAME, now Maria Villa, about three miles from Montreal, was formerly the residence of the Governor-General.

THE MCGILL COLLEGE. This is an institution of very high repute. It was founded by the Hon. James McGill, who bequeathed a valuable estate and £10,000 for its endowment. The buildings for the Faculty of Arts are delightfully situated at the base of the mountain, and command an extensive view.

THE MUSEUM OF THE NATURAL HISTORY OF MONTREAL, is situated in Little St. James Street, and is free to strangers.

THE NEW CITY WATER WORKS. Among the many enterprises there are none which promise more general and useful advantages to the city, than the new works for supplying the city with water. One of the greatest blessings is health, and nothing is more conducive to this than good pure water. This has now been secured by the erection of these works, which tap the St. Lawrence at the Lachine Rapids, some six miles above the city. These works will cost the city, when fully completed, nearly \$1,000,000. The two receiving reservoirs for supplying the city are about 200 feet above the level of the river, and hold twenty millions of gallons.

THE JAIL. This is a substantial stone building, surrounded by a high wall, and is worthy of a visit. It has recently been erected, at an expense of \$120,000.

THE GENERAL HOSPITAL, on Dorchester Street, is a fine cut stone building, and is one of the many prominent institutions of the city.

THE ST. Patrick's HOSPITAL, at the west end of the same street, is an elegant structure, and occupies a commanding position.

THE PROTESTANT ORPHAN ASYLUM, situated in Catherine Street, is a well-conducted charity, sustained by the benevolence of private individuals.

THE LADIES' BENEVOLENT INSTITUTION, for the relief of widows and half orphans, is a large three-story building in Berthelot Street. It is managed solely by a committee of ladies.

THE THEATRE ROYAL, Cote Street, is a fine brick building, and capable of accomodating about 1,500 persons. Under its present management, it has become quite popular with the lovers of the drama.

NELSON'S MONUMENT, Jacques Cartier Square, Notre Dame Street.

THE WHARVES of this city are unsurpassed by any on the American Continent. They are built of solid masonry, and are about two miles in extent.

THE LACHINE CANAL is among the public works particularly worthy of note, and of which the city may

well feel proud. We doubt whether there is on the Continent, when taken in connection with its locks and basins, so permanent and beautiful a structure ; its massive masonry commanding universal attention.

VICTORIA BRIDGE.

This splendid structure, now in progress, to cross the St. Lawrence, will be, when completed, one of the most stupendous structures in North America, and materially aid the business of Montreal, crossing the river from Point St. Charles to the opposite shore. It is to be built on the tubular principle, the same as the Britannia Bridge, at the Menai Straits, and will have a track for railway cars in the centre, while on the outside of the tube there will be a balcony on each side for foot passengers. The bridge will rest on twenty-four firm piers, and it will be sixty feet high, from summer level. The entire cost of the work is estimated at \$7,500,000.

MOUNT ROYAL CEMETERY is situated on the east side of the Mountain, about two miles from the city. Judgement and taste have been displayed in the selection and mangement of the grounds ; it is much visited by strangers.

THE CHAMP DE MARS. This is a favorite promenade for citizens and strangers, being the general parade and review grounds of the military, and is frequently enlivened during summer evenings by music from the fine bands of the regiments.

PLACE D'ARMES is a handsome square, between Notre Dame and Great St. James Streets, opposite the French Cathedral. It is surrounded by a neat iron railing, and tastefully laid out and planted with shade trees. In the centre of the square is a fountain.

As a place of beauty and pleasure, the ride from the city to MOUNT ROYAL will attract the traveller at all times. The distance around it is nine miles, commanding one of the finest views of beautiful landscape to be found in North America; and in returning, entering the city, a view of the St. Lawrence and of Montreal, both comprehensive and extended, that well repays the time and expense.

Next to the drive around the mountain is that on the Lachine road, leading to the village of that name, nine miles from the city. The road is directly along the banks of the river, presenting scenery of unsurpassed beauty and grandeur. It is a lovely drive. If the proper hour is selected, a view may be had of the descent of the steamer over the rapids.

Another favorite drive in the immediate vicinity, is to Longue Pointe, being in an opposite direction from the last and down along the banks of the river.

It would be useless to undertake an enumeration of all the places of interest in and about Montreal, for we believe that there are but few places on the American Continent where can be found so much of interest to the traveller, whether in pursuit of health or pleasure, as in this city.

The Churches of the City.

ROMAN CATHOLIC.

L'EGLISE DE NOTRE DAME, or THE FRENCH PARISH CHURCH, is situated in Place d'Armes, and forms one of the most prominent attractions to the stranger. The corner stone of this Church was laid in 1824, and it was opened for worship in 1829. It contains one thousand two hundred and forty-four pews, and will seat over eight thousand persons. The towers of the Church are two hundred and ninety feet in height. In the north-east tower is a chime of bells, while the north-west contains the monster bell, the largest in America, weighing twenty-four thousand pounds. This tower is always open to the public by payment of a small fee; from the top is presented a splendid panoramic view of the Island of Montreal, which well repays the fatigue of the ascent. The Church contains a variety of paintings, which, with the splendor of the altars, render it interesting.

ST. PATRICK'S CHURCH, Lagauchetière Street.

ST. PETER'S CHURCH, Quebec Suburbs.

ST. JAMES' CHURCH, St. Denis Street:

THE RECOLLET CHURCH, West Notre Dame Street,

BONSECOURS CHURCH, St. Paul Street. The oldest Church in the city.
